December 7, 2025
February 15, 2026

The term “Kibiji” traditionally refers to the entire Okayama Prefecture—Bizen, Bitchu, and Mimasaka—and the eastern part of Hiroshima Prefecture, Bingo. Since its opening in 1986, the Kibiji Literary Museum has collected materials related to writers associated with this region. From this collection, this exhibition presents selected works under the theme “Literature and Art.” We invite you to enjoy the diverse creations that integrate literature and visual art in this exhibition.
